Following patrol report is quoted:-

HEADQUARTERS GUARDIA NACIONAL DE NICARAGUA, JINOTEGA, NIC.
5 November, 1932.

From: The Commanding Officer, Company "M".
To : The Jefe Director, Guardia Nacional de Nic.
Via : (1)- The Department Commander, Department of Jinotega.
(2)- The Area Commander, Guardia Nacional, Central Area.

Subject: Patrol report, 9 October, 1932 to 26 October, 1932.

1. In accordance with orders of the Area Commander, I cleared Jinotega on the morning of 9 October, 1932, with 2nd Lieut G.R. Darrah, GN., 2nd Lieut (H) G. W. Hodge, GN., Company "M" (30 Guardias), thirteen (13) pack bulls carrying twenty (20) days rations for forty-three (43) guardias and extra ammunition, and one (1) machine gun mule. Company "M" was to be reinforced by the combined Corinto Finca-Navarro patrol of fifty-five (55) guardias at Los Angeles (273-327). The mission of the patrol was to gain contact with bandit groups and destroy them and their camps north of Peña Blanca (284-329). On arrival at the bridge over the Rio Tuma at Kilamarte (221-317) and seeing the height of the River, I sent a message to Jinotega to report this fact and requesting that the combined Corinto Finca-Navarro patrol at Corinto Finca, be advised that they could not cross the Rio Tuma below this point. Camped at Paso Real at 1430. It rained all day and the road was very heavy.

2. ...On the morning of 10 october, 1932, the Medical Lieutenant advised that one of the Guardias who had a fever of 104 and was threatened with pneumonia be returned to Jinotega. As the Rio Tuma was higher than I had ever seen it before, I knew that the combined Corinto Finca-Navarro patrol could not cross below Kilamarte, so I cleared a patrol of fifteen (15) guardias to return the sick guardia to Jinotega; this patrol returned that afternoon with the sick guardias as they could not get south of the Rio Tuma. Remained in camp at Paso Real until the morning of 16 October, 1932. The combined Corinto Finca-Navarro patrol had been held up five (5) days by the Rio Jiguina; this patrol consisting of 1st Lieut G. R. Weeks, GN., 1st Lieut N. N. Grieco, GN., 2nd Lieut W. D. Martin, GN., 2nd Lieut B. Navarrete, GN., fifty four (54) guardias, fourteen (14) pack bulls carrying twenty (20) days rations for forty-two (42) guardias and extra ammunition, one (1) machine gun mule, and four (4) riding mules, reported at Paso Real at 1500, 14 October, 1932. Cleared a patrol of fifteen (15) guardias

at 1600, 14 October, 1932, to conduct a sick guardia to Jinotega and secure necessary medical supplies; this patrol returned from Jinotega at 1330, 15 October, 1932; had contact with small group of bandits in Hacienda San Antonio on way to Jinotega, no known results. During this wait in Paso Real, rain fell heavily both day and night.

3. Cleared 0600, 16 October, 1932, with combined patrol on my assigned mission. The patrol had been under bandit observation the entire time it had been in Paso Real and it was scouted out from Paso Real to the Chachagon Pass (283-331) by bandit scouts. Camped for the night at San Juan (253-237). Rain fell during the day and in many places the trail was belly deep in mud for the pack-animals.

4. Cleared 0615, 17 October, 1932, and camped in La Pavona (279-332) at 1800. Rained both night and day. Was forced to lay over in La Pavona on 18 October, 1932, to rest my animals.

5. Cleared 0600, 19 October, 1932, and marched in the direction of and started through the Chachagon Pass (283-331). About one hundred and fifty (150) moved out of the Pass the day the patrol arrived in La Pavona and moved north; three (3) positions had been prepared by the bandits to defend the Pass. This Pass is the toughest proposition that I have seen and against a resolute defense, it would require trench morters and mountain artillery to force it. Camped at the top of the Pass at 1730. Heavy rainfall during day and night.

6. Cleared 0545, 20 October, 1932, and completed the passage of the Pass. One (1) position had been prepared on the far side of the Pass to defend it on the Patrols return. I am of the opinion that plans were made to defend the Pass provided a Guardia Patrol of fifty or less returned after Company "M" came back through it the latter part of September and when this Patrol of eighty-three (83) guardias showed up, it was decided to fall back and join other groups farther North and fight there. Camped at 1730 at point (287-333). Continual rain and trail almost impassable for pack animals. Laid over at point (287-333), 21 October, 1932, in order for the pack-animals to get the required rest. After making an estimate of the situation, I concluded that the bandits would not fight south of point (295-375), where Company "M" was first ambushed in September, as the ground is low and swampy between point (287-333) and there. I knew that due to the condition of the trail and the continued rain that it would take the patrol three (3) days to march to this northern point and with my allotted time for the patrol, I had to decide to return to Jinotega.

7. Cleared at 0530, 22 October, 1932, and camped at La Pavona at 1830. Laid over in La Pavona 23 October, 1932, to rest my pack-animals. Continual rain fall.

8. Cleared 0600, 24 October, 1932, and camped at 1600. Cleared 0630, 25 October, 1932, and camped at Paso

Real at 1530. Cleared 0645, 26 October, 1932. Corinto Finca patrol returned direct to Corinto Finca from Paso Real. Company "M" and Navarro patrol arrived Jinotega at 1300.

9. On 19 October, 1932, a native employed as a bull driver was struck in the foot by a poisonous snake and 2nd Lieut (H) G. W. Hodge, GN., who was with the pack-train, immediately cut the wound open and using his mouth sucked the poison cut. This act of Lieutenant Hodge undoubtedly saved the life of the native and endangered his own. I recommend that Lieutenant Hodge be awarded the Nicaraguan Medal of Merit for this act.

Asunto: Informe de combate.

1. Viniendo de Yali para La Concordia con objeto de escoltar al Sub-teniente J. A. Foster quien hacía el pago en ambos puestos decidí al estar en medio del camino, tomar el camino por la vía de El Salto y dejar la del camino real, tanto para obtener informes como para mejorar el camino. Cuando la punta de mi patrulla se encontraba en las cercanías del Valle (caserío) del Salto, un grupo como de 100 a 150 bandoleros habrió fuego contra la retaguardia de mi patrulla con dos máquinas Thompson, un rifle Browning y Lanza Bombas, al principio del fuego que fue bastante fuerte, mi patrulla no tomó más que la defensiva pues el lugar era propiamente para emboscada; pero pocos momentos después y al organizar la línea de fuego de la patrulla, la línea y el fuego de los bandoleros fue desmoralizada, aprovechando esta desmoralización, mi patrulla cargó contra el enemigo habiendo logrado media hora después des-alojar al enemigo de sus posiciones y poniéndolos en completa derrota.

2. Al explorar el campo encontramos dos muertos, munición, magazines BAR y STG, y artículos de ropa y comida.

3. La conducta de mi patrulla fue verdaderamente sobresaliente pues a pesar de que el enemigo era mucho más superior en número, en armas y en posición, no desmayó ni un momento lo mismo que no se amedrantó ni por la sorpresa ni tampoco por ver a dos de los compañeros que fueron heridos en los primeros momentos. El Sub-Teniente J. A. Foster (CH) cooperó en organizar al ataque y luego después dio a los heridos las primeras curaciones.

3. Al llegar a las primeras casas de ese Valle, pregunté a cerca del grupo de bandoleros que estaba en dicho Valle, lo cual negaban rotundamente las personas a quien preguntaba, seguí adelante y viendo que ya estábamos próximos al lugar o casas en que los bandoleros estaban abandoné el camino, tomando con mi patrulla por entre montes y huertas hasta llegar a la huerta en que ellos estaban, quienes al divisarnos nos dispararon unos pocos tiros de pistola y rifle a lo que nosotros contestamos con un fuego de nuestras armas que dilató como cinco minutos, huyendo los bandoleros en todas direcciones. No hubo bajas de parte de la Guardia ni de los bandoleros. Después inspeccioné las casas próximas a donde ellos estuvieron encontrando carne, interrogué a los dueños de dichas casas de dónde la habían tomado a lo que me contestaron que los muchachos se las habían mandado a regalar, viendo que todo había quedado tranquilo, continué mi camino hasta llegar a la Trinidad, a donde llegué a las 1:30 sin ninguna otra cosa que reportar.

HEADQUARTERS GUARDIA NACIONAL DE NICARAGUA, YALI, NICARAGUA.
7 November, 1932.-

From: The Commanding Officer.
To : The Area Commander, Central Area, Jinotega.
Via : The District Commander, San Rafael del Norte.

Subject: Patrols and activities of Yali Guardia, period 3 November to 7 November, 1932.

1. The following is submitted as a report of movements of the Yali Combat patrol and incidents occurring thereof from 3 November to 7 November, inclusive:

3 NOVEMBER:

Complying with orders from the Area Commander, received by plane drop at this post, Lieut C. D. Snyder, Lieut R. Gutierrez and twenty enlisted cleared on combat patrol to the north of Yali, including the vicinity of Las Guayabas, Bijagual, San Carlos, Los Achotes, Los Chipotillos and Pavona. Patrol cleared Yali at 03303. Upon arrival at Bijagual, the patrol surprised a group of fifteen to twenty bandits in the act of slaughtering a cow belonging to Don Luis Frenzel, of Yali. Owing to the long range from which the patrol had to fire, to keep from being discovered. Casualties among the bandits were unknown, but received reliable information 6 November, that one Bandit died and another was wounded. Later in the afternoon, other groups were spottered in Las Nubes, Los Achotes and San Carlos. Owing to the steep climbing for the patrol and especially the animals, these small groups, upon our approach to these respective places, scattered until the patrol headed for another group. Upon the approach of darkness, I decided in order to make contact with these groups, it would be necessary for the patrol to move without animsl. Patrol cleared for Yali and arrived at 2100. In the meantime, Lieut Wriston, upon receiving orders from the District Commander sent a runner to find and order the patrol back to Yali. The runner failed to arrive in the valley.

4 NOVEMBER:

Patrol remained on guard at station.

5 NOVEMBER:

Lieut Wriston, Teniente Gutierrez and 25 enl cleared on combat patrol. Operated in the same vicinity and upon return to Yali at 1800, reported that Jefe Umanzor and group were in Pavona and Coyolar the previous day but had cleared in the direction of San Antonio. Reliable natives reported, in several districts, that upon hearing the firing the day before, the groups scattered and left their positions.

6 NOVEMBER:

Lieut Snyder, Teniente Gutierrez, 25 enlisted and one armed Civico, cleared Yali and operated from El

Tigre, circling east to Pavona and Coyolar. In Coyolar received information that seven (7) bandits had passed there early in the morning, after having fired a bomb and several shots just north of Yali. Umanzor and group had cleared in the direction of San Antonio. No other information gained. Patrol returned to Yali at 1840. At 2130, after Lieut R. W. Hayward, U.S. Electoral Mission on duty in Yali, had secured all electoral records in the Guardia strong box at the Cuartel, the bandits fired a large dynamite bomb, evidently a signal for opening of the bandit fire started the demonstration against the town of Yali. The bandits had formed an irregular firing line along the potreros about 400 yards from the Cuartel and one small group fired on the Cuartel from a small hil 50 yards from the guardia kitchen. The Guardia sentry on post #2, immediately stopped this fire with bursts from the Browning machine gun, mounted at the trench on post #2. The firing lasted about 15 minutes and a few bandits, having entered the town, were driven off by guardia rifle fire. There were no known casualties and no stores were robbed in the town.

7 NOVEMBER:

Lieut Wrinton, Teniente Gutierrez and twenty five enlisted cleared to conduct voters to their respective districts, namely Bijaguan Valley and the District around Jancudal.

2. In view of the fact that bandit groups were in evidence on practically all sides of Yali, and that it was practically impossible for the Yali combat patrol to cover all inhabited districts in the vicinity of the town, 405 out of a possible 650 men entered Yali to vote on 6 November. The Commanding officer previous to election day, had suggested to all Jueces de Mesta and Jueces de Canton, that they advise as many of their people as possible, to enter Yali two to three days before election day. In this manner a good percentege of voters arrived in town from outlying districts.

2nd Lieut GN.
