

Salvador, at that time Doctor Pio Romero Bosque, who replied  
with full dignity.

Therefore, from that time our army has had to pass different phases, including that for which I was at the point of being the victim of closed policies when I crossed the border of Nicaragua in June of 1929, to seek help with which to sustain the cause which pertains not only to our Defense Army of the National Sovereignty of Nicaragua, but also to all our Racial America. The unjustified indifference of the Indo-Spanish governments is of no import, in the face of the suffering Nicaragua, which distinguishes them as unfit to represent their people who are dignified and conscientious.

The Ex-President of Salvador, Doctor Pio Romero Bosque, the Ex-Minister of Salvador in Mexico, Doctor Juan Ramon Uriarte, and the benevolent patriarch Señor Joaquin Trincado in Buenos Aires, Republic of Argentina conserve copies of our mentioned project, from whom you may solicit a copy of the project referred to by us.

Wishing Happy New Year to all our people of Indo-Hispano  
in 1932.
